Security Overview

Project and Branch Information

Team Notes (SonarQube Training)

master

VERSION: -

New Code

A summary of security findings identified in the New Code.

Security

-

Open Security issues to address

Security Hotspots

-

Security Hotspots to review

Dependency Risks

0

Dependency Risks to address

Accepted Security issues

0

Valid issues that were not fixed

Overall Code

A summary of security findings identified in the entire branch.

Security

Grade is based on the number and severity of open issues

13 E

Open Security issues to address

Security Hotspots

Grade is based on the percentage of reviewed hotspots

0 A

Security Hotspots to review

100% of Security Hotspots have been reviewed

Dependency Risks

Grade is based on the number and severity of open issues

1 D

Open Dependency Risks to address

Accepted Security issues

0

Valid issues that were not fixed

Sonar Security standard report

Findings in the Overall Code that impact Security. Security issues and Security Hotspots listed conform to Sonar Security standard report categories, ordered by impact.

Definitions

Security

Issues in your code that are open to attack and require immediate action.

The security rating is based on the number and severity of those Issues. The thresholds are:

- A **≥ 0 info issues**
- B **≥ 1 low issue**
- C **≥ 1 medium issue**
- D **≥ 1 high issue**
- E **≥ 1 blocker issue**

Security Hotspots

Security-sensitive pieces of code that need to be reviewed manually.

Upon review, you'll either find that there is no threat or that there is vulnerable code that needs to be fixed.

The grade is based on the percentage of reviewed (fixed or safe) security hotspots. The thresholds are:

- A **≥ 80%**
- B **≥ 70% to < 80%**
- C **≥ 50% to < 70%**
- D **≥ 30% to < 50%**
- E **< 30%**

New Code

The Clean as You Code approach focuses on New Code that has been added or changed recently and ensuring that this code is clean and safe.

In this approach, New Code has fewer issues as it’s the developers’ primary focus.
